ABOUT ME

Successfully developed and conducted the course "Industrial JavaScript Programming".

Worked with methodologies: Agile, Scrum, Kanban.

Experience with monolithic and micro-frontend architecture.

Some experience in back-end development, ready to delve deeper into back-end.

Some experience in designing and developing SQL databases.

Planning to transition to a full-stack developer in the future, as well as to learn React Native and Vue.js.

EDUCATION

2018

State University "Dubna",

Higher Education

Computer Science and Computing Technology

Software Engineer
